

Genie set-up, retrieval of item, & put-away Genie

College of Wooster 2010

“Mini Tech Olympics”

Beginning at home base teams will get the Genie, set it up under the item to be retrieved, retrieve and place the item, and put away the Genie. Team members will work one at a time in rotation accomplishing one item at a time. (Only one team member “on stage” at a time.)

ACCOMPLISH THE PROCESS IN THE FOLLOWING ORDER:

Beginning at HOME BASE, move the Genie from its location to under the item to be retrieved and then go to home base.

Put one leg into Genie slot and tighten.

Put one leg into Genie slot and tighten.

Put one leg into Genie slot and tighten.

Put one leg into Genie slot and tighten.

Turn on Genie and check to see all legs are ready.

Go to Genie, go up and retrieve item, lower item to stage, and place item at designated location.

Remove one leg from Genie and place in storage location.

Remove one leg from Genie and place in storage location.

Remove one leg from Genie and place in storage location.

Remove one leg from Genie and place in storage location.

Turn off Genie and return Genie to beginning location and return to HOME BASE.
