

Border removal and Tie-off of lineset

College of Wooster 2010

“Mini Tech Olympics”

Beginning with a designated lineset, fly in, tie off and remove the border. Then fold and place the border in the appropriate location. Team members will work one at a time in rotation accomplishing only one item at a time. (Only one team member “on stage” at a time) TWO team members are needed for folding, ONE team member for untying each half of the drape & TWO team members to put the folded drape in its place.

ACCOMPLISH THIS PROCESS IN THE FOLLOWING ORDER:

Beginning at HOME BASE, go to the fly rail and safely fly in and lock the designated lineset.

Get rope and tie off the counterweight hand line with the proper tie-off knot.
Get approval from Jody BEFORE untying tie lines on the batten/drape.

Untie tie lines from SR side of CL on drop.

Untie tie lines from SL side of CL on drop. Entire drop should be untied.

Two team members fold one-half of the border (standard center-fold).

Two team members fold the other half of the border (standard center-fold).

Two team members place the border in specified location and return to HOME BASE
